

ALEX MORGAN

Skills Mapping & Data Analyst

Johannesburg, South Africa | +27 71 000 0000 | alex.morgan@example.com
linkedin.com/in/alexmorgan | github.com/alexmorgan

PROFILE

Analytical and detail-oriented data professional with experience in skills intelligence, occupational classification, data modelling, and research. Skilled at transforming complex datasets into structured insights that support workforce planning, skills matching, and decision-making. Comfortable working across SQL, Python, data visualisation, and research workflows.

CORE SKILLS

Data & Analytics	Python, SQL, pandas, data cleaning, exploratory analysis
Skills Intelligence	ESCO, occupational taxonomies, skills extraction, skills matching
Databases	Relational modelling, PostgreSQL, schema design, ETL pipelines
Research	Literature reviews, source evaluation, qualitative & quantitative analysis
Visualisation	Power BI, Excel, Matplotlib, dashboards and reporting

PROFESSIONAL EXPERIENCE

Skills Data Analyst — Workforce Analytics Lab

Johannesburg, South Africa | 2024–Present

- Designed and maintained relational datasets for occupational and skills mapping projects.
- Developed SQL workflows to clean, transform, and connect occupation, skill, and competency records.
- Built Python-based data processing pipelines for classification, matching, and quality checks.
- Produced analytical reports and visualisations to communicate workforce and skills trends.

Research & Data Intern — Future Skills Research Group

Pretoria, South Africa | 2022–2024

- Supported literature reviews on skills planning, labour markets, and education-to-work transitions.
- Extracted and standardised information from academic publications and structured datasets.
- Assisted with data documentation, validation, and preparation of research outputs.

EDUCATION

BSc (Hons) Data Science — University of South Africa

2021–2024 | Coursework: databases, statistics, machine learning, research methods

National Senior Certificate — Example High School

2016–2020

SELECTED PROJECTS

ESCO Skills Mapping Database — Designed a SQL schema linking occupations, skills, concepts, relationships, and source metadata.

Job-to-Skills Matching Prototype — Built a prototype pipeline that compares job descriptions with standardised skill concepts.

Workforce Skills Dashboard — Created an interactive reporting workflow for analysing skill demand by occupation and sector.

CERTIFICATIONS

SQL for Data Analysis · Python Data Analysis · Power BI Fundamentals · Research Methods
